Introduction

A club can create all its Teams in GMS, once all the Teams have been created, upon registering players for the clubs, based on the age of the player or eligibility requirements and the parameters of the team (age grade) the players will be mapped to their applicable Team.

This allows the club administrators to have an overall picture of its Teams and players that are eligible to play in those teams.

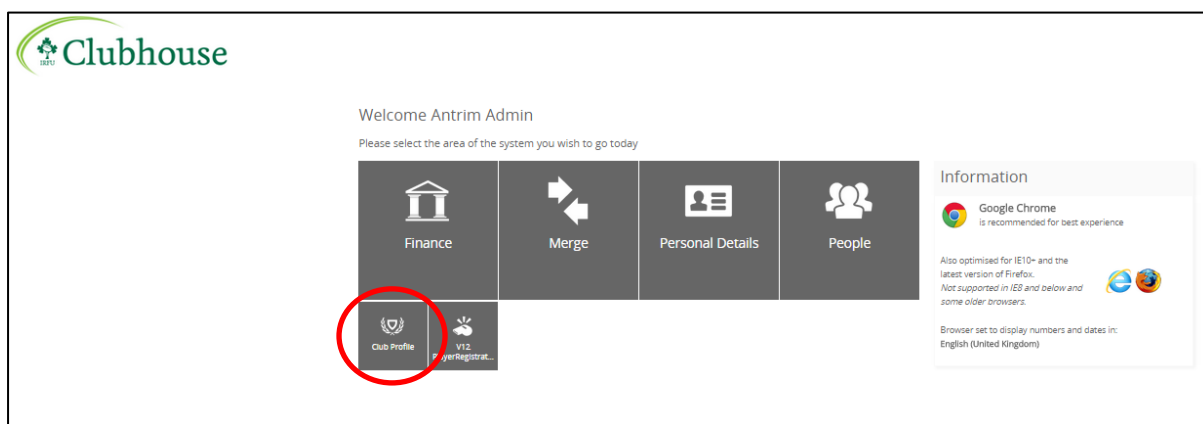

GMS also permits the assigning of Coaches, to specific teams. Allowing them to manage that team and obtain their players details.

Prior to being assigned to a Team, coaches in GMS have very limited access, assigning them Team permissions

Based on permissions, the coaches will ONLY have access to that Team of players.

1. Assigning Coaches to Teams

To add a coach to a Team, select **Organisations Profile**

Irish Rugby Football Union
